They came from the Proxima star system which is 3-4 light years away from Alpha Centauri. Their hyper drive broke down as they were visiting Earth leaving them stranded. They are quite the thoughtless ones.

These two individuals are aliens.

3 year and half years after
the Kappa attentively
watched over the elderly
couple and the Emperor
of Gaea. She got on the
rescue ship and created
all her memories when she
arrived on her home planet...
There is now an old tale

A GIRL
CAME OUT
FROM INSIDE!

BEHOLD
THIS IS
TERRIBLE!
DEAR...
